Violent Cyber Bullying.

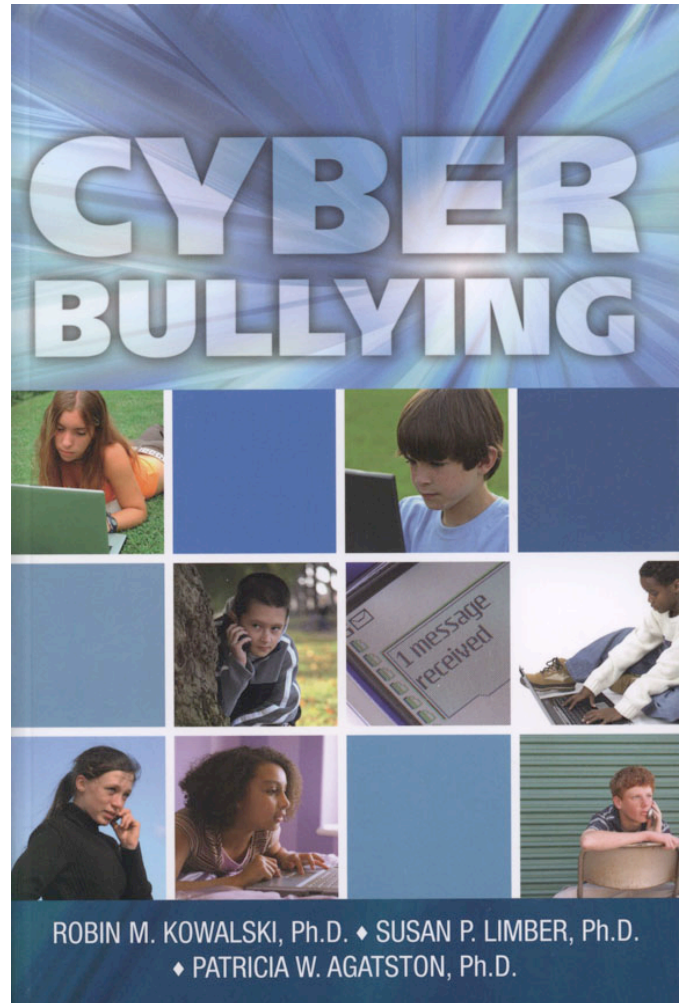

One quarter of 4-9 students are being bullied every week. Using technology to bully is more popular these days than face to face. Using technology to bully is called Cyber bullying.

What is cyber bullying? Cyber bullying is when people are repeatedly bullying you using technology.

How you can help your children to protect themselves? Tell them to use a nickname instead of their real name, but make sure their name is a good and friendly name. Make sure they know using an avatar is better than putting a picture of themselves because someone won't know that it is your child.

How can you stop an anonymous bully?

- Tell a teacher
- Tell your parents
- Ignore them
- Don't talk to them
- Don't retaliate
- Make a new account
- And tell them to stop.
